About Us

Who we are and What we do

INTRODUCTION

One GE Accounting | Consulting

One GE stands for **One** as **G**lobal **E**xpert. The Company name was formed by two Co-Founders to represent who we are and the experience we are creating for our clients.

In today's business environment, challenges arise every day and business conditions change continually, so it is vital that you keeping up with the market on a regular basis. Otherwise you run the risk of making business decisions based on out-of-date information, which can lead to business failure.

However, it is not easy to keep up with the market at all time, especially for small to medium sized enterprises (SMEs) and also the right solutions aren't always available for immediate actions.

To handle these concerns, you need a partner that can provide you with exactly the right advice, strategy and systems for your needs. A partner with

deep industry knowledge, market insights and broad range of capabilities.

We are that partner. **One GE Accounting | Consulting** were founded in 2017 with aim to be one of leading global accounting and managing consulting firms. Our team is made up of highly motivated and experienced individuals capable of delivering quality service and cost effective solutions.

We work shoulder to shoulder with you as a partner not only resolving your problems and but also transforming your business to deliver better outcomes at speed and with certainty, while managing related risks.

We have the answers you need to find for your business success.

WHO WE ARE

One GE Accounting | Consulting are independent accounting and consulting firms founded in Dubai. We work with our clients as a partner to resolve challenges, guide them to make better decisions, convert those decisions to actions, achieve better results and sustain growth they plan.

The quality of our team makes us outstanding from other firms. By combining our diverse expertise, experience and network, each client will receive professional services that go above and beyond their expectations.

All our services are fully managed by our professional team and we make sure that every client is served by the expertise of our whole firm at the best level.

One GE provide the services by two channels below:

One GE Accounting

Accounting & Assurance

Financial Statement Audit
Bookkeeping
Financial Statement Reporting
Regulatory Compliance & Reporting

Financial Statement Audit: We provide independent auditing services ranging from startups to multinational corporation through our audit partners (from tier1 to tier 3 audit firms). We do not just verify financial statements but we help you to identify inherent risks and guide you to improve related internal controls. Our team has diverse industry experience, expertise and capacities to provide you the best available tailored audit services.

Bookkeeping: We offer comprehensive bookkeeping services who wish to outsource bookkeeping functions. Our professional team will help you to maintain relevant, reliable and accurate financial information up to date. Furthermore, we can design and develop the bookkeeping system to meet your individual business needs.

Financial Statement Reporting: We help our client to meet their financial statement reporting requirements. We can provide compilation and review services depending on the client's individual needs and requirements.

We can also assist in evaluating and interpreting the financial results for management.

Regulatory Compliance & Reporting: We can help you to not only meet, but also understand ever-changing regulations and accounting standards that grow more complex each year. We will make sure you stay on track by advising on the latest regulations that would affect your business on a regular basis.

Advisory

Corporate Finance
Financial Management
Investments (Corporate)
Due Diligence

Corporate Finance: We can work with you to improve financial planning and implementation of various strategies by providing deal solutions, industry & market knowledge and advice & support on your finance related decisions.

We can advise you on all aspects of dealing with debt (refinancing of debt and accessing a new debt market), treasury (forex and interest rates) and private equity (raise private equity)

Financial Management: We can help you achieve improvements in the finance function to be more efficient, effective and better aligned with your business plan and strategy which in turn improve overall financial outcomes. Our solutions include: creating & reviewing financial models, financial information & performance management, cash flow management, cost management and budget planning & forecasting.

Investments (Corporate): We provide solutions tailored to your investment needs and goals. We can provide guidance to help you develop an asset allocation strategy, trade ideas and investment guidelines especially in MENA region. We can also provide research materials giving you insights into local economic and market dynamic affecting your investment decisions and commentary giving you our view on asset classes and sectors in local market.

Due Diligence: We help our clients make better decision by performing due diligence. Our due diligence service will be performed on developing accurate assessment of key industry performance issues including cash flow drivers and relevant market. It also include identifying costs & contingencies and reviewing deal / transaction related documents.

Tax

Indirect Tax (VAT)

Trade and Customs

Korean Tax Advisory

Dispute Resolution & Controversy Services
with tax authorities

Indirect Tax (VAT): Dealing with VAT and other indirect taxes can be the complex task. We can help you to identify and minimize indirect tax risks, meet its compliance obligations including registration and filing returns and reduce your tax payable which will improve your cash flow.

We deliver practical and tax-effective advice to make sure that you have better process control and visibility of your VAT and other indirect taxes.

Trade and Customs: We can assist you planning international trades / transactions to reduce trade costs (e.g. customs duty payments and other trade related costs), advising up-to-date local tax laws and reporting requirements and mitigate import/export risks, especially in GCC.

Korean Tax Advisory: We offer tax compliance and advisory services that help companies implement their tax strategies to meet local tax compliance obligations and also manage tax accounting and reporting issues in South Korea. In addition, we can resolve disagreements with tax authorities when they arise. We provide the services in association with one of top 3 tax firms in South Korea, *Yeil Tax Accounting Corporation*.

Dispute Resolution & Controversy Services: We can perform refund reviews, manage your tax disputes, provide tax audit, assessment, defense and appeal services with tax authorities.

Also, we can help you to develop sound policies and processes that can provide prevent you from potential audits and disputes.

Information Technology

ERP / CRM Implementations

SAP Advisory

IT Audit

IT Solution & Strategy Development

Support and Upgrades

ERP/CRM Implementations & SAP Advisory: We provide implementing and supporting most of well-known ERP/CRM software's (specialized in SAP software). Our ERP/CRM experts will be fully engaged from the initial stage to assist your internal resources to plan and complete the whole process in conjunction with consultants provided by the ERP/CRM vendor. Our services include ERP/CRM Project Management, Change Management, Testing, Validation and Data Management.

IT Audit: We conduct IT audit and IT security assessment for most of industries. We can help you understand the risks to your organization and how to address them. Our professional team include accounting, audit and tax experts, network specialists, IT programmers and business analysts.

IT Solution & Strategy Development: We can transform your IT landscape to solve your complex technology-related challenges and make it business ready by developing tailored IT strategies to improve your technological capabilities, systems and support you require to succeed. Also, we help you re-shaping your business, utilizing IT to drive and enable business change to create sustainable business value.
